

Mission

The Pennsylvania Cancer Coalition (PCC) engages organizations and other stakeholders in the implementation of the 2019-2023 Pennsylvania Cancer Control Plan (Cancer Plan) to reduce the cancer burden in Pennsylvania, reduce cancer risk factors, find cancers earlier, improve treatments and optimize quality of all lives touched by cancer.

Structure

The PCC is a committee of the Pennsylvania Cancer Control, Prevention and Research Advisory Board that provides a statewide framework for implementing the Cancer Plan goals and strategies through its subcommittees and workgroups. Its governance includes co-chairs and an executive team. The PCC meets quarterly, providing time for project management, networking and educational programming.

PCC Subcommittees and Workgroups

Workgroups address specific cancers or topics on how evidence-based approaches are being implemented to fulfill Cancer Plan goals. Subcommittees provide subject matter expertise on overarching areas to support and improve the effectiveness of the workgroups.

Subcommittees

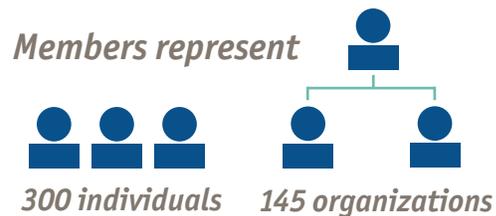

- Communications
- Disparities
- Evaluation
- Membership
- Policy

Workgroups

- Cancer Genetics/Genomics
- Colorectal Cancer
- HPV Related Cancers
- Lung Health
- Men's Health
- Survivorship

Become a member!

The Pennsylvania Cancer Coalition (PCC) invites individuals and organizations to join in the fight to reduce the burden of cancer in Pennsylvania. New members can join by completing an online membership profile on pacancercoalition.org. There are no membership fees.

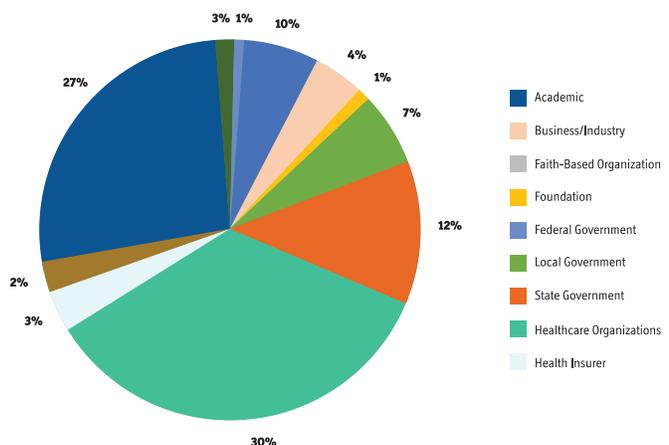

Benefits of membership

All members have the power of coordinated collaboration to fight cancer in Pennsylvania, share opportunities of collaborated learning and information. By working together, members leverage resources, increase awareness and adoption of best practices in cancer control, and convene experts to implement the state's Cancer Plan goals and strategies. This ensures that state, federal and other resources are targeted and used judiciously to make the greatest impact on Pennsylvania's cancer burden.

Pennsylvania
had the third highest cancer diagnosis rate in the country.¹
