

# RCIs Collaborative to Increase Participation in Clinical Trials

## Resources for Health Care Professionals and Improving Public Participation Individuals

### Healthcare Professionals

#### Find Clinical Trials

- [Find Trials - ClinicalTrials.gov](https://clinicaltrials.gov)
- [Penn State's StudyFinder](#)
- [UPMC Hillman Cancer Trials Finder](#)

#### Talking to Your Patients

- [Talking to Your Patient About a Clinical Trial | National Institutes of Health \(NIH\)](#)
- [What is Clinical Research? - YouTube](#)
- [What are the different types of clinical research? - YouTube](#)
- [Why Do Researchers Do Different Kinds of Clinical Studies?](#)
- [The Precision Medicine Initiative](#)

#### Journal Articles

- [Improving Public Participation in Clinical Trials - Envisioning a Transformed Clinical Trials Enterprise in the United States - NCBI Bookshelf](#)

### Individual Resources

#### Information on Clinical Trials

- [The Basics | National Institutes of Health \(NIH\)](#)
- [Cancer.net](https://www.cancer.net)

#### What You Need to Know About Clinical Trials

- [What You Need to Know about Clinical Trials \(cancer.org\)](#)
  - Types and Phases of CT
  - Deciding Whether to Participate
  - Protecting People in CT
  - Being in a CT
  - Understanding your Diagnosis
  - Treatment and Side Effects
  - Survivorship During and after Treatment
  - Finding and Paying for Treatment

#### Find Clinical Trials

- [Find Trials - ClinicalTrials.gov](https://clinicaltrials.gov)

## Should you join a Clinical Trials

- [Clinical Trials | Cancer Survivors | CDC](#)
- Video [Patient Safety in Clinical Trials - YouTube](#)

## Questions to Ask your Doctor

- [Questions to Ask about Cancer Treatment Clinical Trials - National Cancer Institute](#)
- [Clinical Trials and Older Adults](#)

## Caregivers and Family

- [Cancer Caregiver Support | American Cancer Society](#)

## Resources:

The Lung Association is pleased to announce the launch of its project, Awareness Trust and Action: Improving Lung Cancer Clinical Trial Enrollment in Black Americans. The Black community is disproportionately impacted by lung cancer and underrepresented in lung cancer clinical trials. Sometimes the most appropriate treatment option for a lung cancer patient is through a clinical trial, so it is important for all patients to discuss this option with their doctor. This new campaign aims to educate about lung cancer clinical trials and empower all lung cancer patients, including Black Americans to advocate for their own participation. This campaign is nationwide but will also have a marketing focus in Chicago, Philadelphia and Houston. Participation = Representation. You can learn more at [Lung.org/trials-and-you](https://lung.org/trials-and-you).

We are asking stakeholders like yourself to share our assets on your social media channels and with your partners. You can share our [landing page](#) or any of the individual videos below. Thanks for helping us raise awareness of this important issue.
