4 Discussion

ID	Discussion
1	PA Comp Cancer Plan Colorectal Cancer Objective: Increase the percentage of people aged 45-75 who received one of the recommended CRC screenings from 77% (2020 USCS) to 86% (+9% over 10 years) by 2033.
2	Group discussion for cancer plan action plan focused on: <ul style="list-style-type: none"> • Reaching employers to add screening initiatives for employees specific for CRC screening – Colonoscopy Day, for example • Working with top payors in the commonwealth to clarify/ensure CRC screening is covered beginning at age 45 without issue • Reaching providers through CME opportunities, including topics around informed decision making and insurance challenges • Collaboration with policy workgroup to advocate for funding
3	Additional discussion around bringing the necessary people to the workgroup and gaining a better understanding of the expertise of current members
4	The workgroup is leaning towards focusing the action plan on strategies to reach 3 audiences in CRC screening outreach: Patients, Payors and Employers, and Providers
5	We will continue work on our Action Plan in October. Pat Halpin from the PA Breast Cancer Coalition will join us in November to discuss efficitive strategies for coalitions. Next meeting is Wednesday, Oct 11 at 9am.
