4 Discussion

ID	Discussion
1	<p>The PHMC Evaluation team provided an update on analysis of PCC Annual Stakeholder Survey results.</p> <ul style="list-style-type: none"> • Stakeholder Satisfaction survey results and findings will be presented to the CAB/PCC in December. • 112 respondents completed the survey, more than any previous year. It seems that the outreach plan and involvement of co-chairs who encouraged workgroup/subcommittee members, as well as Sharon’s promotions, were helpful in increasing the response rate.
2	<p>The PHMC Evaluation team provided a specific update on findings from the COVID-impact specific question of the PCC Annual Stakeholder Survey.</p> <ul style="list-style-type: none"> • Across the cancer continuum areas, survey respondents working within the cancer continuum areas of Detection/Screening and Cancer Prevention reported the most disruption to their work, with 36 (32%) and 32 (29%), respectively, of survey respondents reporting that the COVID-19 pandemic affected their work on the PA Cancer Plan goals in that area. • Relatively fewer respondents reported that the COVID-19 pandemic affected their work on the PA Cancer Plan goals in the areas of Diagnosis/Treatment and Survivorship, 14 (13%) and 10 (9%), respectively.
3	<p>The PHMC Evaluation team will be working to draft the 2020-2021 Evaluation Report including analyses of Annual Stakeholder Survey findings, to be delivered to PA DOH in September, and will request assistance from the Subcommittee as needed.</p>
