

**Date: 7/19/2023**

**PCC Men's Health Work Group meeting called by: Fern Gilkerson, Patrick Loftus**

**10:00am – 11:00am**

- Discussed survey sent out to group by Jeremy, regarding days/times to meet. We haven't received a lot of replies, so the survey will be sent again.
- Workgroup reviewed the Family Health Tree Flyer format- it will be put in for Communications approval this week. Flyer will be used to reach young men for education on family health history, with a focus on minority health. QR code included on flyer that will take users to a website, allowing creation of family health history.
- Written content explaining why the Family Health Tree and health history app are important: A draft has been written (Patrick), and will be shared with the group before the next call.
- Workgroup thanked Fern for all her hard work and guidance with the group. A call is being put out to bring on another co-chair.
- Latino Connection has joined our work group (thank you, Nicolas Polanco, Sean McCormick).

**Next Steps**

- We are waiting on flyer approval from Comms- updates will be shared with the group once flyer is through that process.
- A brief list of co-chair responsibilities is being written up; this will be helpful when trying to recruit.
- We will stick to the current schedule for meetings: Third Wednesday of each month, 10-11 am. This may change once we receive more replies to the members survey.

**Next Meeting**

- August 16, 10-11 am.  
(Invite will be sent asap; we may be using Teams app for future meetings.)
